

[Publication of Reports on Financial Stability Surveys](#)

[Eventos](#)

Banco de la República conducts regular surveys to various economic agents in order to obtain their perception on different aspects regarding the stability of the Colombian financial system. Based on these surveys, the Central Bank carries out annual or semi-annual reports that provide a detailed analysis of the results:

1. [Quarterly Survey on the Situation of Credit in Colombia - June 2019](#) 
2. [Survey on the current Situation of Microcredit in Colombia - June 2019](#) 
3. [Survey on the Perception of Risks to the Financial System - First half of 2019](#) 
4. [Survey on the Recent Evolution of External Indebtedness of Colombian Banks - June 2019](#)
